

A1A IN ACTION

ENHANCING A PIECE OF FORT LAUDERDALE'S FUTURE

"A1A In Action" is a project dedicated to enhancing a piece of Fort Lauderdale's future by transforming a portion of this iconic roadway into a vibrant, resilient, multimodal destination.

BACKGROUND:

The City of Fort Lauderdale, in partnership with the Florida Department of Transportation (FDOT), Broward County, and the Broward Metropolitan Planning Organization (MPO) completed an emergency restoration of A1A following damage caused by Hurricane Sandy.

NEXT STEPS:

Designs for the revitalization of a portion of State Road A1A along Fort Lauderdale Beach from E. Sunrise Boulevard to N.E. 18 Street are complete. Once permitted, FDOT will solicit contractor bids. Project construction is expected to begin this summer and last approximately two years.

PROJECT HIGHLIGHTS:

The A1A project includes an array of features designed to create a safe, active, multi-purpose roadway for pedestrians, bicyclists, beach goers, and motorists. Amenities will include:

- Gateway entrance at E. Sunrise Boulevard
- A 10 to 17-foot promenade with pedestrian crosswalks and sidewalks
- On-street parking and bicycle lanes
- Florida-friendly landscape
- Traffic calming medians and 11-foot lane widths
- Turtle friendly lighting on both sides of street
- Extension of iconic wavewall to N.E. 18 Street

For details, please call (954) 828-3764 or email sdreesen@fortlauderdale.gov.

STAY TUNED FOR UPCOMING A1A IN ACTION PUBLIC MEETINGS

The City of Fort Lauderdale will host public meetings in the coming months to provide project updates. To receive notifications, visit www.fortlauderdale.gov and sign-up for City News Alerts.
